

Product Code Groups & Slider Carousels

There are certain places throughout your eRental site that you can add “Sliders” also known as Product Carousels. These sliders display product code pages assigned to a group. This is a great way to promote your most lucrative, popular, or stagnant rentals. Once you’ve added product codes to a group and setup a product group as a slider on the main landing page or a category landing page, that slider will show on that page with those product codes like this:

The product code pages you add to the group will show anywhere you’ve placed that product group as a slider (main landing page, category landing page, other group landing pages). Simply select the radial button in the column titled “Slider” and then select the product group you’d like to display.

[Home](#) / [Site](#) / [Landing Page](#)

Section	Text	Slider	None	
Hero	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	Product Group for Widget : Popular Rentals ▼

Run a full site publish via iNextAdmin > Site > Publish UI > Publish Rental Site

Verify changes show on your customer-facing site (you may need to hard refresh with CTRL+F5 or clear your cache / open in an incognito window)

If you have any issues, please reach out to your Digital Experiences Consultant, Account Manager, or the Support Team through the usual channels.
